

REMARKS

Applicants wish to thank the Examiner for allowing claims 19 and 21 in the Notice of Allowability mailed April 25, 2008. This amendment is being filed with a Request for Continued Examination to re-open examination of this application.

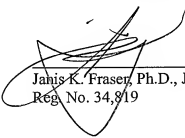

Applicants would like to note that the title of this application was amended to "Methods for Producing Antibodies" in the preliminary amendment filed with the application on December 3, 2004. However, this amendment appears not to have been entered and the application was published with the title "Methods of Constructing Antibody". By way of this amendment, applicants amend the title once more to "Methods for Producing Antibodies" and respectfully request that this amendment be entered.

Claims 19 and 21 are pending and under examination in this application (claims 1-18 and 20 were cancelled previously). In the present amendment, applicants have amended claims 19 and 21. Support for these amendments can be found in the specification at least at page 14, lines 24-25. No new matter has been added.

No fees are believed to be due at this time. Please apply any charges or credits to deposit account 06-1050 referencing, Atty. Docket No. 14875-137US1.

Respectfully submitted,

Date: 24 July 2008
